### **MULTITEK MODEL 1610EZ FIREWOOD PROCESSOR**

Multitek Model 1610EZ Firewood Processor. The fully self contained Model 1610EZ boasts a rugged built processor frame. With features that well suit the seasonal firewood producer, growing firewood business, rental organization, or woodlot manager the 1610EZ is a fast efficient way to process hardwood logs into firewood.

Increase production and reduce labor costs with the economical model 1610EZ firewood processor. Powered by a 25 hp Subaru gas, 24 hp Honda gas, or optional diesel engines, the 1610EZ is designed to cut and split firewood at rates from 1.0 to 1.5 full cords (128 cubic feet per cord) from random length low grade logs to 10' in length.

Outstanding features of the Model 1610EZ include, standard log lift arms, hydraulic drive cut-off saw with aggressive micro chisel cutters, 3/8" pitch chain, and a hydraulic chainsaw style cutting system for ultra fast cut-off times. Interchangeable, adjustable wedges allow the operator to choose between, 2, 4, or 6 way firewood splits to meet your customers' needs. An integrated folding 13' conveyor system allows for stockpiling of firewood and for the mobile processing of logs.

This one operator, highly mobile machine will quickly provide income as a rental machine, a woodlot management tool, and will jump start your firewood business.

## FIREWOOD PROCESSOR MODEL 1610EZ

### PERFORMANCE:

- Production Rating:  
1.0 - 1.5 Full Cords per Hour  
(128 cubic feet per cord)
- Splitter Cycle Time: 6 Seconds
- Maximum Log Length 10'
- Maximum Log Diameter 16"
- Minimum Log Diameter 3"
- 24" Splitter Chamber

### SPECIFICATIONS:

- Engine Horsepower:  
25 hp Subaru Robins Gas Engine  
(3 year warranty)
- Transport Length:  
16'0" or 19'3" with integrated  
13' conveyor system
- Transport Width: 6'0"
- Operating Width: 5'10"
- Trailer Hitch Type: 2" Ball
- Standard Hydraulic log lift / log deck
- Hydraulic Saw Mechanism
- Hydraulic Log Infeed
- 3,300 lbs with 310 lbs of tongue weight
- Fenders and Trailer Lights
- Saw Chain: 3/8" pitch
- Hydraulic oil cooler: Standard

### PROCESSOR OPTIONS:

- Hydraulic powered log infeed deck
- 6-way interchangeable wedge
- 24 hp Honda Gas Engine (2 year warranty)
- 25 hp Diesel (several options available)
- 20', 30', or 35' separate conveyors
- 13' integrated folding conveyor system

Multitek is a pioneer of quality fuelwood processing equipment and has been designing and manufacturing firewood processors for 30 years. Multitek Firewood Processors are the only firewood processors in the world for handling and processing low grade crooked hardwood logs. Only the larger models have the unique patented shuttle-grapple which make it possible for you to efficiently produce firewood from low grade logs.
