Multitek is a pioneer of quality fuelwood processing equipment and has been designing and manufacturing firewood processors for 30 years.

Multitek Firewood Processors are the only firewood processors in the world for efficiently handling and processing low grade crooked hardwood logs.

The unique shuttle-grapple makes it possible for you to efficiently produce firewood from low grade logs.

Manufactured by:

700 Main Street / P.O. Box 170
 Prentice WI 54556-0170 U.S.A.
 715-428-2000 / Fax 715-428-2700

Multitek reserves the right to change or improve products without notice and the right to change prices or discounts without notice.
 MULTITEK products are covered by several U.S. & Canadian Patents.
 Multitek Product Warranty – 12 months.

From logs to split firewood fast....!

MULTITEK MODEL 2025LDCS FIREWOOD PROCESSOR
 Featuring the "exclusive patented" infeed log grapple carriage.

- * Heavyweight machine can be towed with a heavy-duty pickup truck with a pintle hitch.
- * Rugged, easy to operate and economical to maintain.
- * For operator safety saw bar moves down and away from operator. Minimize the bar oil over spray on processor operator.
- * Automatic chain oiler, draws bar oil from a separate dedicated bar oil reservoir not the hydraulic fluid tank.
- * Stainless steel bearings on livedeck, shaft mounted log stop and kicker.
- * Perimeter safety kill switch is easy to access in the work area.
- * Splitter push pad has replaceable bearings no metal-to-metal contact.
- * High strength alloy steel long-life splitter blades

This firewood processor is fast becoming our biggest seller for our professional customers. The model 2025LDCS is a tough, portable, one-man processor that features a **66 hp** liquid cooled diesel. One man can now saw and split firewood at a rate of up to 2.5 cords per hour (128 cubic feet / cord) from random length low-grade hardwood logs 20" (51 cm) in diameter and 25' (7.6 m) in length. Standard features include joystick style operator controls, fold down three arm live deck, and patented overhead log in-feed shuttle grapple for grabbing and feeding low grade or crooked logs towards the saw. Also included are a hydraulic drive saw with .404" pitch 18H chain and options for an interchangeable 4 or 6 way splitter head that is vertically adjustable. You can quick-connect to a rugged conveyor for loading a truck or for stockpiling firewood.

2025LDCS

PERFORMANCE:

- * Production Rating: 2+ Cords Per Hour (rated in "full cord" based on 128 cubic feet (3.62 m3) volume per cord)
- * Maximum Log Length: 25' (7.62 m)
- * Maximum Log Diameter: 20" (51 cm)
- * Splitter Cycle Time: 4 seconds
- * Feed System: Multitek Shuttle Grapple
- * Saw Chain: .404" (18h, 80 ga. saw bar)
- * Splitter Opening: 27" (68.6 cm)
- * Wedges - Adjustable 4 – 6 – 8 splits

SPECIFICATIONS:

- * Engine: CAT/John Deere/Kubota Diesel
- * Horsepower: 66 hp (49 kw)
- * Fuel Capacity: 50 US gal (189 L)
- * Hyd Reservoir Capacity: 70 US gal (265 L)
- * Hydraulic Oil Cooler: Standard
- * Axles: Tandem w/elec brakes -ICC Lights

SPECIFICATIONS (Continued):

- * Trailer Hitch Type: Pintle ring
- * Transport Length: 28' (8.53 m)
- * Transport Width: 8.6' (2.62 m)
- * Transport Height: 12' (3.66 m)
- * Livedeck Load Height: 4.75' (1.45 m)
- * Weight: 10,500 lbs (4,763 kg)

PROCESSOR OPTIONS:

- * Heated Operator's Cab
- * Work Area Floodlights
- * Short Log Livedeck Arm
- * Live Log Deck Extension
- * Electric or Stationary
- * 4 or 8 Way Interchangeable Wedge
- * 11H cut-off Saw Chain
- * 20' (6.1 m), 30' (9 m), 35' (10 m) Firewood Stacking Conveyors
- * Bolt Retriever Log Bypass Tip Pan
