

[Redacted]

Means being on the lookout for quality equipment that makes my job safer and less grueling.

Recently, I was in the market for a skid-steer grapple and researched the various options offered.

I was frustrated to find that the cost-to-performance ratio was poor and they didn't offer the features that I needed. Disappointed, I never purchased a grapple.

Understanding the need for a grapple that was affordable yet full-featured, I designed the MARK I & II Skidsteer Grapple. Strong, versatile and built to logging industry standards, this design is everything I ever wanted in a skid-steer grapple and more!

If you can't justify the cost of other grapples or deal with their lack of features, I invite you to experience what I believe to be the best skidsteer design grapple in the Tree Service industry.

Sincerely
Owner, Designer, Mark Hazelquist,
Quality Tree Service

Clean up is a
BREEZE with
MARK I & II

MARK I & II Help You:

- Work Safer
- Work More Efficiently
- Lower Overhead
- Keep Your Crews Happy

- Custom machined integrated hydraulic circuit
- Heavy Duty Pushbar (T1 steel)
- Fairlead rollers with self-lubricating composite bushings
- Pin locks on all bolts and pins
- ETD 150 grade pins
- 360° Continuous Rotation
- Mfg with replaceable bushings
- Dual heel areas for greater versatility (T1 steel)

Pushbar

The Pushbar is ideal for those large trunks and awkward leaners. This

feature saves loads of time in a whole spectrum of applications.

9000 lb (4082 kg) winch with a 120' (37 m) of 3/8" (.95 cm) cable. Winch placement is down and out of the way of the operator for greater visibility and safety.

- Integrated steps for safety and ease of enter and exit

Powerful. Compact. Versatile.

MARK I & II WILL CHANGE THE WAY YOU WORK.

HOW DO YOU GET BY WITHOUT ONE NOW?

**Bypass capabilities
close down to 3" (7.62 cm)
and open to 54" (137 cm)**
